Ajit Singh Roger Tarling John Wells Frank Wilkinson

The *Journal* publishes theoretical and applied articles on major contemporary issues, with strong emphasis on the provision and use of empirical evidence and the formulation of economic policies. In this it differs from most existing journals, devoted as they are to a sterile body of theory divorced from practical questions. The editors break with conventional practice by including a regular commentary on current affairs. There are also review articles and commissioned articles on subjects of importance.

From Recent Issues
